PCMG 2014 Annual Conference.

Yesterday, Today and Tomorrow – 20 Years of PCMG

4-6th June, Cascais Miragem Hotel, Lisbon, Portugal

What were you doing 20 years ago? In 1994, a small group of pharma managers decided it would be a good idea to share ideas and best practice for contracting with CROs. They met in London to hold the first meeting of this group and PCMG was born. It has since evolved to meet the challenges from the increasing volume and scope of outsourced clinical trial activities into today's PCMG.

This year also marks the 10th Anniversary of the first PCMG Annual Conference, and its unique format to exchange information between members and CROs – without running the gauntlet of exhibition stands!

Online registration for members is now open:
www.pcmg.org.uk

Conference Agenda Highlights

- How feasible are feasibility studies?
- Private Equity's opportunity to speak about their vision for CROs
- Buckle up - you think we manage risk well compared to aviation?
- Third party contracting – nobody does it better than Sponsors?

“Where do I register for the PCMG Conference?”

Site Agreement Workshop April 10th 2014, Brussels.

Now open for registration!

New applications in Technology & Changing Regulations are Shaping Sponsors' Relationships with Investigative Sites. Do you fully understand implications and options for managing the 'sharp end' of clinical development outsourcing?

Either you or your delegate can register for this important workshop that will include examination of:

- Transparency and reporting
- Contracting efficiencies and tools
- Managing Investigator payments
- What's so important about Clinical Trial Insurance?

Agenda Details are on PCMG website

Contracting, Outsourcing.....Procurement?

ink.

As mentioned in the last newsletter, the January Workshop, supported by PRA, focused on the future role of 'Procurement' in Clinical Development Outsourcing. This followed the initial presentations in Budapest and included presentations including the evolving perceptions (bad cop or good cop?) and role of Procurement from PRA's Rolf Steen and Novartis' Head of Development Strategic Sourcing DSS Paula Gildert.
