

## **PCMG 2020 Events & COVID-19 Response Update 03 March 2020**

Dear PCMG Members and PCMG Event Delegates

The PCMG Directors and Committee have reviewed the latest updates regarding the emerging Coronavirus situation across Europe and implications for scheduled PCMG events. It is currently impossible to accurately forecast the effect on individuals' ability to travel nationally and internationally and the potential risk of group meetings in person. We have, therefore, concluded that it is appropriate to **postpone the following events until further notice:**

- **31 Mar/01 April 2020, PCMG Advanced Outsourcing Training Course, London**
- **12/13 May 2020, PCMG Outsourcing Essentials Training Course, London**
- **14 May 2020, PCMG Workshop, London**

We realise this will be disappointing, to delegates and event leaders alike and appreciate your understanding of this measure. In the interim, the PCMG Committee are working to launch a series of Webinars to help fill this gap in meetings and continue sharing information amongst our members.

The PCMG leadership is mindful that it is still three months until the PCMG 2020 Annual Conference June 3-5 in Krakow. A great deal can still change in this period, so the preparations for this major event including registrations, speaker content and sponsorship, will continue as normal, although continuous monitoring of the situation will be maintained, and updates provided frequently to all enrolled and potential participants.

Thank you for your patience and continuing support. PCMG remains open and online!

**The Directors (PCM Ltd.) and PCMG Committee**
